For the Six Months Ended March 31, 2023

# 1. NATURE AND CONTINUANCE OF OPERATIONS

Enduro Metals Corporation (the "Company") was incorporated under the Business Corporations Act (British Columbia) on July 20, 2009 and is publicly listed and traded on the TSX Venture Exchange ("TSX-V") under the symbol ENDR and on the OTC Markets Group Inc under the ticker symbol "ENDMF", and the Frankfurt Stock Exchange ("FSE") under the ticker symbol "SOG". The Company is currently engaged in the identification, acquisition and exploration of precious metal resources in Canada. The Company's head office and principal place of business is suite 202 – 1632 Dickson Avenue, Kelowna, BC, V1Y 7T2, Canada.

The continued operations of the Company are dependent on its ability to develop a sufficient financing plan, receiving the continued financial support from related parties, completing sufficient equity financings or generating profitable operations in the future. The Company has not generated revenue from operations and expects to incur further losses in the exploration and evaluation of its mineral properties. These conditions indicate the existence of a material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern. The condensed interim consolidated financial statements do not include any adjustments to the amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue its business.

These condensed interim consolidated financial statements have been prepared in accordance with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The operations of the Company are primarily funded from financing activities and the issuance of capital stock.

### Risks associated with Public Health Crises, including COVID-19

The Company's business, operations and financial condition could be materially adversely affected by the outbreak of epidemics, pandemics or other health crises, such as the outbreak of COVID-19 that was designated as a pandemic by the World Health Organization on March 11, 2020. The international response to the spread of COVID-19 has led to significant restrictions on travel, temporary business closures, quarantines, global stock market volatility and a general reduction in consumer activity. Such public health crises can result in operating, supply chain and project development delays and disruptions, global stock market and financial market volatility, declining trade and market sentiment, reduced movement of people and labour shortages, and travel and shipping disruption and shutdowns, including as a result of government regulation and prevention measures, or a fear of any of the foregoing, all of which could affect commodity prices, interest rates, credit risk and inflation. In addition, the current COVID-19 pandemic, and any future emergence and spread of similar pathogens could have an adverse impact on global economic conditions which may adversely impact the Company's operations, and the operations of suppliers, contractors and service providers, including smelter and refining service providers, and the demand for the Company's production.

The Company may experience business interruptions, including suspended (whether government mandated or otherwise) or reduced operations relating to COVID-19 and other such events outside of the Company's control, which could have a material adverse impact on its business, operations and operating results, financial condition and liquidity.

As at the date of the condensed interim consolidated financial statements, the duration of the business disruptions internationally and related financial impact of COVID-19 cannot be reasonably estimated. It is unknown whether and how the Company may be affected if the pandemic persists for an extended period of time. In particular, the region in which we operate may not have sufficient public infrastructure to adequately respond or efficiently and quickly recover from such event, which could have a materially adverse effect on the Company's operations.

The Company's exposure to such public health crises also includes risks to employee health and safety. Should an employee, contractor, community member or visitor become infected what serious illness that has the potential to spread rapidly, this could place the Company's workforce at risk.

# 2. SIGNIFICANT ACCOUNTING POLICIES

# **Statement of Compliance**

These unaudited interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 – Interim Financial Reporting under International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB"). These condensed interim consolidated financial statements follow the same accounting policies and methods of application as the most recent annual consolidated financial statements of the Company. These condensed interim consolidated financial statements do not contain all of the information required for full annual financial statements. Accordingly, these unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's September 30, 2022, annual consolidated financial statements, which were prepared in accordance with IFRS as issued by the IASB.

These unaudited condensed interim consolidated financial statements are expressed in Canadian dollars and have been prepared on a historical cost basis except for financial instruments that have been measured at fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting on a going concern basis. The accounting policies set out below have been applied consistently to all periods presented in these condensed interim consolidated financial statements as if the policies have always been in effect.

#### **Basis of Presentation**

The policies applied in the condensed interim consolidated financial statements are presented below as of May 26, 2023, the date the Board of Directors approved the condensed interim consolidated financial statements.

The condensed interim consolidated financial statements have been prepared on a historical cost basis except for certain financial assets measured at fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

### **Basis of Consolidation**

These condensed interim consolidated financial statements include the accounts of the Company, its wholly owned dormant Mexican subsidiary Minera Sierra Gioc SA. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. All significant inter-company transactions and balances have been eliminated upon consolidation.

# **Estimates, Judgments and Assumptions**

The Company's management makes judgments in its process of applying the Company's accounting policies to the preparation of its unaudited condensed consolidated interim financial statements. In addition, the preparation of financial data requires that the Company's management make assumptions and estimates of the impacts on the carrying amounts of the Company's assets and liabilities at the end of the reporting period from uncertain future events and on the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting impacts on the carrying amounts of the Company's assets and liabilities are accounted for prospectively.

Funds raised through the issuance of flow-through shares are required to be expended on qualifying Canadian mineral exploration expenditures, as defined pursuant to Canadian income tax legislation.
